What to Do If the COOLPIX5000/995/885/775 is Listed Under Other Devices
- Windows 98/98 Second Edition (SE) -

**Step 1**
The Device Manager sheet will be displayed. Double-click the listing for the “NIKON DSC E995” that appears under “Other devices” or “Miscellaneous Devices.”

![Device Manager Screenshot](image)

**Step 2**
The NIKON DSC E995 Properties dialog will be displayed. Open the General tab and click Reinstall Driver.

**Step 3**
The Windows Update Device Driver Wizard will be displayed; click Next.

![Update Device Driver Wizard Screenshot](image)
Step 4
The dialog shown below will be displayed. Select “Search for a better driver than the one your device is using now. (Recommended)” and click Next.

Step 5
The dialog shown below will be displayed. Holding down the shift key to prevent the Welcome dialog from opening automatically, insert the Nikon View 4 CD into the CD-ROM drive. Select CD-ROM drive and click Next.

Step 6
A dialog will be displayed stating that Windows has found the drivers for the “Nikon Digital Camera Mass Storage Driver”; click Next.

If the message, “Windows was unable to find a suitable driver for this device,” is displayed, this may indicate that the Nikon View 4 CD was not correctly inserted in the CD-ROM drive or that the correct search location was not specified. Click Back to return to the dialog shown in Step 5, where you can confirm that the correct location has been specified.

Step 7
The dialog shown below will be displayed; click Finish.

If the Welcome dialog appears when the CD-ROM is inserted, close the dialog by clicking the Quit button.
Step 8
Click the General tab for the Nikon Digital Camera Mass Storage Driver, and confirm that “This device is working properly” appears under “Device status.” Click Close.

Step 9
The Windows hardware wizard will now start installation of the Nikon Digital Camera Controller with the dialog shown below. Click Next.

Step 10
Select the search option and click Next.

Step 11
Holding down the shift key to prevent the Welcome dialog from opening automatically, insert the NikonView 4 CD into the CD-ROM drive. Select CD-ROM drive and click Next.
**Step 12**
A dialog will be displayed stating that Windows has found the drivers for “Nikon Digital Camera Controller”; click **Next**.

If the message, “Windows was unable to find a suitable driver for this device,” is displayed, this may indicate that the Nikon View 4 CD was not correctly inserted in the CD-ROM drive or that the correct search location was not specified. Click **Back** to return to the dialog shown in Step 11, where you can confirm that the correct location has been specified.

**Step 13**
The dialog shown below will be displayed; click **Finish**.

**Step 14**
Click **OK** to close the System Properties window.
