As an ENERGY STAR® Partner, SHARP has determined that this product meets the ENERGY STAR® guidelines for energy efficiency. ENERGY STAR® is a U.S. registered trademark.

As an ENERGY STAR® Partner, SHARP has determined that this product meets the ENERGY STAR® guidelines for energy efficiency. ENERGY STAR® is a U.S. registered trademark.
Welcome to the SHARP Family. We are pleased that you are now the owner of a SHARP Color Television—built for outstanding quality, reliability and performance. Every SHARP Color Television set is tuned and adjusted for proper color and sound, and has passed through the most stringent quality control tests at the factory. We have prepared this OPERATION MANUAL so that you may adjust the picture and color to your personal viewing preference. We sincerely hope that you receive the greatest satisfaction and enjoyment from your new SHARP Color Television set for years to come.

Please read these instructions carefully, and keep them handy for your future reference.

**Important Information**

There are two important reasons for prompt warranty registration of your new SHARP television set, using the REGISTRATION CARD packed in with the set.

**FIRST – WARRANTY**

This is to assure that you will immediately receive the full consumer benefit of the parts, service and labor warranty applicable to your purchase.

**SECOND – CONSUMER PRODUCT SAFETY ACT**

To assure that you will promptly receive any safety notification on inspection, modification or recall that SHARP may be required to give under the 1972 Consumer Product Safety Act. PLEASE READ CAREFULLY THE IMPORTANT “LIMITED WARRANTY” CLAUSE ON THE LAST PAGE.

**WHAT IS ENERGY STAR®**

TVs and VCRs use energy both when they are on and when they are off. Americans spend more than $1 billion a year on energy consumed by TVs and VCRs when they are not in use. The new ENERGY STAR® models will reduce that energy “leakage” by up to 75 percent. Ultimately, this will mean more than $500 million a year in energy savings for consumers.

The energy savings will help reduce the burning of fossil fuels and the related carbon dioxide pollution that contributes to global warming. If every American family replaced their TVs and VCRs with ENERGY STAR® models, it would reduce carbon dioxide emissions by five million tons every year — equivalent to eliminating the pollution from more than one million cars.

By using ENERGY STAR® products, you will save money on your electric bills and use less energy. That makes good economic sense and it’s good for our environment.

**WARNING:** TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO WET LOCATIONS.

The lightning flash with arrowhead within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

"Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.”

Before Operating Your Television

Location

- For normal operation, your TV should be located in an area of the room where cool adequate ventilation is provided. Do not place the back of the television set in a place where free airflow will be restricted.
- Any magnetic force may disturb the color picture. Make sure that magnets, electric clocks, toys using magnets or any other magnetic substance, such as iron are kept well away from this TV set.

Power

- Your TV operates on 120 Volts, 60 Hertz (normal household current) and has a polarized plug. If you are unable to insert the plug fully into the outlet, try reversing the plug. Should it fail to fit, contact an electrician. Do not defeat the safety feature of the polarized plug.

- If the set will not be used for a long period, such as during a vacation, unplug the set from the wall outlet to economize power. (If the TV set is plugged in, a slight current still flows, even with the POWER BUTTON in the OFF position.)
- Lines and other noise may appear in TV broadcast images when an FM tuner or radio is located near the TV and both radio and TV broadcasts are being received. Should such noise appear, turn off either the TV or the radio.
- If you are listening to an AM broadcast, turn the TV off. AM broadcast signals may not be received due to the interference of the TV.

Before using the television, prepare the Remote Control

To use the remote control, insert batteries first.

Insert the batteries

- With your thumbnail, pull up the slit as indicated by the arrow to remove the back cover. Insert two batteries (size “AA”). Be sure to match the battery ∅/∅ terminals with the ∅/∅ marks inside the compartment.

Antenna Connections

- The antenna requirements for good color television reception are more important than those for black & white television reception. For this reason, a good quality outdoor antenna is strongly recommended.
- The following is a brief explanation of the type of connections that are provided with the various antenna systems:
Antenna Connections (Continued)

1. A 75 ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (not supplied).

2. A 300 ohm system is a flat “twin-lead” cable that can be attached to a 75 ohm terminal through a 300-75 ohm ADAPTOR (not supplied).

OUTDOOR ANTENNA CONNECTION

• Use one of the following two diagrams if you connect an outdoor antenna.
  A: Using a VHF/UHF combination outdoor antenna.
  B: Using separate VHF and/or UHF outdoor antenna.
• Connect an outdoor antenna cable lead-in to the COAXIAL CABLE CONNECTOR on the rear of the TV set.

A. Combination VHF/UHF Antennas

B. Separate VHF/UHF Antenna

CABLE TV (CATV) CONNECTION

• A 75 ohm coaxial cable connector is built into the set for easy hookup. When connecting the 75 ohm coaxial cable to the set, screw the 75 ohm cable to the COAXIAL CABLE CONNECTOR.
• Some cable TV companies offer “premium pay channels”. Since the signals of these premium pay channels are scrambled, a cable TV converter/descrambler is generally provided to the subscriber by the cable TV company. This converter/descrambler is necessary for normal viewing of the scrambled channels. (Set your TV on channel 3 or 4. Typically one of these channels is used. If this is unknown, consult your cable TV company.) For more specific instructions on installing cable TV, consult your cable TV company. One possible method of utilizing the converter/descrambler provided by your cable TV company is explained below.
  Please note: RF switch equipped with position A/B (not provided) is required.

  “A” position on the RF switch (not supplied) : You can view all unscrambled channels using the TV’s channel keys.
  “B” position on the RF switch (not supplied) : You can view the scrambled channels via the converter/descrambler using the converter’s channel keys.

Note:

• Consult your SHARP Dealer or Service Center for the type of splitter, RF switch or combiner that might be required.

EZ SETUP during First Power On

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels. Please perform the following instructions before you press the power button.

1. Insert the batteries into the remote control. (See page 3)
2. Connect the antenna cable to the TV set. (See page 3 ~ 4)
3. Plug in the AC POWER cord to the wall outlet.

1. Press the **POWER** button on the TV set or on the Remote Control to turn on the TV. The SELECT LANGUAGE mode will be displayed.

2. Press **CH UP (▲)** or **DOWN (▼)** to select “ENGLISH”, “SPANISH (ESPANOL)” or “FRENCH (FRANÇAIS)”.

3. Press **VOL (+)** or **(–)** to access EZ SETUP mode.

4. Press **VOL (+)**. The tuner will automatically search for the broadcasting and cable TV channels. (The CH No. will automatically increase when it appears.)

   - If you want to stop the EZ SETUP process once it has started, press **VOL (–)** and it will be canceled.
   - If you want to SETUP again, please refer to page 21 on SETUP.

5. Once EZ SETUP is completed, the lowest channel number memorized will be displayed.

**Note:**

- If EZ SETUP does not memorize all the channels in your region, please refer to page 22 for more information on manually memorizing the channels using CHANNEL SETTING.
- It may be difficult to PRESET when the broadcasting signals are weak, the channel cycle frequency is incorrect or the frequency jamming is occurring around the area. Please refer to pages 22 ~ 24 for more information on manually memorizing the channels using CHANNEL SETTING.
Demo Mode

• To quickly learn more about the TV set, press and hold for more than three seconds both **CH UP** (▲) and **DOWN** (▼) on the TV set. The TV set will go into DEMO mode and briefly explain the various features.

• To cancel DEMO mode, again press both **CH UP** (▲) and **DOWN** (▼) on the TV set.

Example:
DEMO mode display

Accessing the MAIN MENU screen without Remote Control

• If you misplaced your Remote Control you can still access most settings via the MAIN MENU screen when you press both **CH UP** (▲) and **DOWN** (▼) on the TV set.

• Some features of your TV set will not be accessible without the Remote Control. If you lost your Remote Control, contact a Sharp Service Center for a replacement.
Language

The language for the ON SCREEN DISPLAY can be set to ENGLISH, SPANISH or FRENCH.

Setting the ON SCREEN DISPLAY Language.

1. Press **MENU** to access MAIN MENU screen.

2. Press **CH UP (▲)** or **DOWN (▼)** to move the “” mark to “SET UP”.

3. Press **VOL (+)** or **(–)** to access SET UP mode, then press **CH UP (▲)** or **DOWN (▼)** to move the “” mark to “LANGUAGE”.

4. Press **VOL (+)** or **(–)** to access LANGUAGE change mode.

5. Press **CH UP (▲)** or **DOWN (▼)** to select “ENGLISH”, “SPANISH (ESPAÑOL)” or “FRENCH (FRANÇAIS)”.

6. Press **MENU** to exit.

Closed Caption

HOW TO SET CLOSED CAPTION

- Your TV is equipped with an internal Closed Caption decoder. “Closed Caption” is a system which allows you to view conversations, narration, and sound effects in TV programs and home videos as subscript on your TV screen as shown on the right.
- Not all the programs and videos will offer closed caption. Please look for the “[CC]” symbol to ensure that captions will be shown.
- Closed Caption broadcast can be viewed in two modes: CAPTION and TEXT. For each mode, two channels are available, CH1 and CH2:
  - The [CAPTION] mode subscribes dialogues and commentaries of TV dramas and news programs while allowing clear view of the picture.
  - The [TEXT] mode displays over the picture other various information (such as TV program schedule, weather forecast, etc.) that is independent of the TV programs.

1. Press MENU to access MAIN MENU screen.
2. Press CH UP(▲) or DOWN(▼) to move the “•” mark to “CLOSED CAPTION”.
3. Press VOL (+) or (–) to access CLOSED CAPTION setting mode.
4. Press CH UP(▲) or DOWN(▼) to move the “•” mark to either “MODE” or “DATA”.
5. Press VOL (+) or (–) to change the CLOSED CAPTION setting.
6. Press MENU to exit.

Note:
- If a broadcast has CLOSED CAPTION and the MUTE button is pressed, the set enters [CAPTION] mode automatically. Pressing MUTE again will return the set to its previous condition.
- Closed Caption may malfunction (white blocks, strange characters, etc.) if signal conditions are poor or if there are problems at the broadcast source. This does not necessarily indicate a problem with your set.
- If any button is pressed to call up the ON SCREEN DISPLAY while viewing a CLOSED CAPTION broadcast, the closed captions will disappear momentarily.
- When viewing in TEXT mode, if no TEXT broadcast is being received, for some programs the screen may become dark and blank. Should this occur, set the Closed Caption mode to "OFF".
Parent Control (V-CHIP Operation)

V-CHIP
- This function allows you to restrict TV programs and also allows you to control TV usage based on FCC data. This function is to prevent your children from watching violence or sexual scenes that may be harmful.
- Restriction of TV programs includes two characters that contain information about the program’s MPAA rating and the TV Parental Guidelines. MPAA is restricted by age. TV Parental Guidelines are restricted by age and contents.
- Since a TV program may use either the MPAA rating or the TV Guidelines you should adjust both for complete control.

Limited Warranty

CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand product (the “Product”), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below. This warranty does not apply to any appearance items of the Product nor to any remanufactured part thereof which has been subjected to improper voltage or other misuse, abnormal service or handling, or which has been altered or modified in design or construction.

In order to enforce the rights under this limited warranty, the purchaser should follow the steps set forth below and provide proof of purchase to the servicer.

The limited warranty described herein is in addition to whatever implied warranties may be granted to purchasers by law. ALL IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR USE ARE LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. Neither the sales personnel of the seller nor any other person is authorized to make any warranties other than those described herein, or to extend the duration of any warranties beyond the time period described herein on behalf of Sharp.

The warranties described herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Sharp be liable or in any way responsible, for any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than an authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow the exclusion of incidental or consequential damages, so that above exclusion may not apply to you.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.
